

**Idor**<sup>®</sup>   
Geolife<sup>®</sup> technology

**Natural solution for the treatment of septic tanks of up to 3m<sup>3</sup> and for domestic drains, such as washbasin siphons and sanitary plumbing**

**Idor**<sup>®</sup>   
Geolife<sup>®</sup> technology

## OBJECTIVES

**Optimising the natural purification process**

**Descaling**

**Eliminating bad odours coming from drains**

**Helping to keep the domestic drains in good condition**

- To activate, balance and accelerate indigenous microbiological activity.
- Accelerating microbiological degradation of organic substances present in the septic tank and pipes that are the cause of bad odours.
- Idor<sup>®</sup> accelerates microbial processes of disintegration and solubilisation of incrustations that cause blockages in the pipes.
